SUMMARY

Second-year Software & Data student at Constructor University Bremen focused on backend engineering, API development, and developer tooling in Python. Built and deployed production applications using FastAPI, PostgreSQL, and async architectures. Seeking software engineering or backend internships.

PROJECTS

gh-analyzer pypi.org/project/gh-analyzer · github.com/Alir3zag/gh-analyzer

Python · AsyncIO · aiohttp · Rich · pytest · PyPI

- CLI tool scoring GitHub repository health 0-100 across commit momentum, bus factor (HHI), issue resolution rate, PR latency, and release cadence.
- Built async GitHub API client with pagination, rate-limit backoff, structured exception handling, and optional AI-generated summaries via Gemini.
- Published to PyPI (pip install gh-analyzer) with 25 unit tests covering core analytics.

GPU Price Tracker web-production-090678.up.railway.app/docs · github.com/Alir3zag/gpu_price_tracker

FastAPI · SQLAlchemy · PostgreSQL · APScheduler · Railway · JWT · BeautifulSoup

- Production REST API tracking GPU prices across 4 marketplaces (Newegg, Walmart, Amazon, eBay) with scheduled monitoring and multi-currency support.
- JWT authentication, per-user scheduling via APScheduler, automated deal scoring, and email alerts.
- Deployed on Railway with PostgreSQL; public API documented with Swagger.

EXPERIENCE

Independent Projects

Jan 2025 - Present

- Designed and deployed async backend systems with REST APIs, JWT auth, and PostgreSQL across multiple projects.
- Managed deployment pipelines on Railway, integrated third-party APIs, and maintained open-source repositories on PyPI and GitHub.
- Wrote automated test suites (25+ unit tests) and applied exponential backoff, pagination, and structured exception handling.

Operations Associate — Flink

Dec 2025 - Jan 2026

Bremen, Germany

- Maintained operational accuracy and execution speed in a fast-paced logistics environment.
- Coordinated with team members to meet time-sensitive delivery targets.

EDUCATION

Constructor University Bremen — B.Sc. Software, Data & Technology

Sep 2024 - Jun 2027

Relevant coursework: CS50P (HarvardX) · CS50W (HarvardX) · 6.00.1x (MITx)

Seyed Kamaladin Mousavi High School — Diploma (18.98/20)

Sep 2019 - Jun 2023

Kerman, Iran · 3rd Academic Rank in School

SKILLS

Languages	Python · C++ · JavaScript · HTML · CSS
Backend & APIs	FastAPI · REST APIs · JWT Authentication · AsyncIO
Databases	PostgreSQL · SQLite · SQLAlchemy
Tools	Git · GitHub · Railway · pytest · APScheduler · PyPI

LANGUAGES

Persian — Native
English — Professional — IELTS 7.0 (Writing 7.5)
German — Elementary — A1, in progress

VOLUNTEER

- Volunteer Teacher, Yas Charity (2022-23) — Maths & English for children of cancer patients.
- Volunteer Translator, TED (2023) — Translated 4 talks EN to Persian.
- Volunteer Pianist, Kamkar Academy (2016-20) — Performed for children with cancer and elderly residents.
